# LUXURY INTERIOR

- ✓ Design Intent/taste
- ✓ **Technical Specification**
- ✓ Design intent translate into reality

## WHY HARPA PRO ?

Our role is in **technical specification, procurement and shipping** to your country

- 
- Material/Product health and safety standards  
(Limit emission of volatile organic compounds, Fire resistance, Structural performance)
  - Clear production-ready technical drawings  
(Translate drawings in Chinese, Check product match fabrication or design specification )
  - Track procurement in real time with our App  
(Received regular reports: Pre-production, production, pre-shipping, and shipping)

### Standards Compliance

## Company Profile

Haining Mingyuan Decorative Materials CO., LTD. is a professional engaged in the research, development, sale, and service of SPC Flooring. It's based on advanced and professional machines for production, shaped by the processing from floor extrusion, UV coating, slotting, and under backing pad to inspection and packaging, controlling the product quality strictly for every process.

It is located in Shuangfeng industrial zone, Haining City, Zhejiang province, and covers an area of 10000 square meters, a beautiful environment, and excellent geographical conditions. The company has independent import & export rights, products are exported to European, America, Southeast Asia, South America, and other countries. We adhere to product design and high-quality standards to provide quality products to consumers. In the energy shortage, environmental pollution is serious today, we take green environmental production as a concept.

QUALITY CERTIFICATION  
权威认证 品质值得信赖

**ISO9001**  
ISO 9001 is a quality management system standard developed by the International Organization for Standardization to help organizations improve the quality of products and services to meet customer needs and expectations. By implementing ISO 9001, organizations can improve work efficiency, reduce costs, enhance customer satisfaction, and gain a competitive advantage in the international marketplace.

**FLOOR SCORE**  
FLOOR SCORE is an environmental certification program for flooring products that assesses their impact on indoor air quality. By obtaining certification, flooring products can demonstrate that they meet stringent environmental standards, helping consumers choose healthier, environmentally friendly flooring. The certification also promotes sustainability and environmental protection in the flooring industry.

**CE**  
CE certification is a product safety compliance certification in the European market, indicating that the product meets the relevant safety, health and environmental standards in Europe, and can be sold and circulated in the European market.

**SGS**  
SGS Certification is a certification service provided by the SGS Group to verify that products comply with international standards and regulations. SGS certified products have a higher degree of trust and market competitiveness.
